

# BUCKMASTER & BUCKMASTER PRO

## COMMERCIAL BUCKER FOR HEMP AND CANNABIS

The Trimator BuckMaster and BuckMaster Pro are built for commercial-scale harvests with an innovative design that doubles the production of traditional buckers. Designed with one- or two-operator stations, the BuckMaster series can easily accommodate any workflow. Wash-down grade stainless and aluminum components make cleaning fast and easy. Customizable height, ergonomic material holders, and an emergency stop keep operators safe and production efficient.

## HIGH-SPEED BUCKING

### WET AND DRY

Quickly change bucking profiles based on strain and moisture level.

### ENHANCED POWER

The 1 HP motor delivers massive torque for non-stop bucking.

### SCALE AS YOU GROW

Modular upgrade kit allows you to convert your BuckMaster into a BuckMaster Pro, doubling your production.

### GMP COMPLIANT

Stainless steel touch points and an easy-to-clean design for GMP-compliant facilities.

### 100% PRESSURE WASHABLE

IP65-rated components make cleaning fast and easy.

### BUILT TO LAST

Robust design and industrial-grade components ensure years of reliable service.
